

55 ANNI MADE IN ITALY

Una tradizione
dal 1964

L'arredo della tavola è una vera e propria cultura tramandata nel tempo. Il gusto e lo stile ne modificano l'estetica, ma ciò che permane nelle generazioni è la cura della qualità ed il prestigio.

E' la costante ricerca degli svariati usi della posateria e degli accessori di cucina che rende la cultura italiana ricca di novità.

Salvinelli da più di 55 anni dedica energie creative e produttive per la realizzazione di posateria ad alto valore, ponendo una costante attenzione al design e alla ricerca della perfezione. Il sapiente uso dell'acciaio si sposa con l'esperienza e la caparbia di generazioni. Il risultato è una splendida gamma di prodotti che tramandano il vero stile italiano di posateria.

*A tradition
since 1964*

The decor of the table is a real culture passed on the time. The taste and the style changes the design, but remains the care of the quality and the prestige. The steady search of the various uses of the cutlery and of the kitchen equipments make the Italian culture rich of novelties.

For over 55 years, Salvinelli has devoted creative and production energies to the manufacture of high value cutlery. Their focus on details combines with their pursuit for perfection; the expert use of steel merges with the experience and wilfulness of many generations. The outcome is a wonderful range of beautiful products that hands down the real Italian Style of cutlery.

*Una tradición

LA STORIA

THE HISTORY

È una storia di sviluppi e progresso quella dell'azienda di posateria Salvinelli, ma soprattutto è una storia di esperienze tramandate nelle generazioni. I suoi fondatori, i fratelli Costanzo e Faustino Salvinelli, nel 1964, crearono una piccola meccanica e con i dovuti strumenti del mestiere, iniziarono a costruire stampi di posate per conto di industrie locali.

La grande richiesta di stampi e la soddisfazione nel progredire con questo lavoro, li spronarono a creare un'azienda artigianale con il nome di "Fratelli Salvinelli".

Negli anni '70 ampliarono il reparto meccanica dell'azienda e iniziarono a farsi conoscere nel mondo del commercio di posate e casalinghi. Salvinelli iniziò a farsi notare per la sua qualità nel lavoro, nelle rifiniture, nel gusto e cercò sempre di migliorarsi per raggiungere livelli sempre più alti.

Salvinelli has a long story of progress and development, but above all it has a story of experiences handed down from generations. It's founders, Salvinelli's brothers Costanzo and Faustino, created in the 1964 a little mechanical company and with the necessary instruments, they started to develop moulds for other local factories of cutlery.

The big requirements of the moulds and the satisfaction of the progress, lead them to create their own factory with the name "Fratelli Salvinelli" (Salvinelli's brothers)

In the '70 years they expanded the mechanical department and they started to go in the market of cutlery and housewares. Salvinelli started to be known for its quality, finishing and the style and every year it tries to gets higher levels.

LA HISTORIA

Es una historia de desarrollos y avances del negocio de cuchillería Salvinelli, pero sobre todo es una historia de experiencias transmitidas en las generaciones. Sus fundadores, los hermanos Costanzo y Faustino Salvinelli, en 1964, creó una pequeña mecánica y con las herramientas necesarias del oficio, comenzaron a construir moldes de cuchillería en nombre de las industrias locales. La gran demanda de moldes y satisfacción en progreso con este trabajo, hay espoleado en la creación de una empresa artesanal con el nombre de "Fratelli Salvinelli". En los años 70 amplían el departamento mecánico y comenzó a darse a conocer en el mundo de la cuchillería y artículos del hogar. Salvinelli comenzó a hacerse notar por su calidad en el trabajo, en los acabados, en el gusto y siempre tratamos de mejorar para alcanzar niveles cada vez más altos.

Negli anni '90 l'azienda ha trovato nuovi spazi per estendere le aree dell'attività in edifici confinanti in modo da non perdere la compattezza delle zone di lavoro. L'espansione fu un processo graduale e costante. Tutto il ciclo produttivo della posateria è interno: dalla progettazione e creazione degli stampi, alle varie fasi di lavorazione delle posate, compresa la ricottura dei modelli di alta qualità, fino al confezionamento. Ogni fase è seguita accuratamente da personale specializzato e sempre in aggiornamento. I modelli sono progettati e ideati internamente secondo studi di gusto e di tendenze e tutti prodotti da Salvinelli in Italia, il quale si preoccupa non solo di modernizzare le tecniche di produzione, ma anche di andare incontro alle esigenze di stile e moda che il mercato esige.

INNOVAZIONE E DESIGN

DESIGN AND INNOVATION

In the '90 years the factory increased its work space into near buildings and it gradually expanded its work. The circle of production is made totally inside: from the planning to the development of the moulds, from the drawing of the new models of cutlery to the manufacturing, including the firing of the high quality models. Specialized people follow each phase of the production and they are always update about the technical manufacturing. The models of cutlery are created according to the fashion of the market and its own style, but above all Salvinelli produces all models in Italy. It's takes care about the news in the technological sector and it joins ability and style.

En los años 90, la compañía encontró nuevos espacios para ampliar las áreas de actividad en los edificios vecinos para no perder la compacidad de las áreas de trabajo. La expansión fue un proceso gradual y constante. Todo el ciclo de producción es interna: desde el diseño y creación de los moldes, en las distintas etapas de procesamiento de los cubiertos, incluida la recocido de los modelos de alta calidad, hasta el embalaje.

Cada fase es seguida cuidadosamente por personal especializado que siempre está actualizado. Los modelos están diseñados internamente de acuerdo con los estudios de gustos y tendencias y todos producido por Salvinelli en Italia, que se ocupa no solo de la modernización de las técnicas de producción, sino también de las necesidades de estilo y moda que exige el mercado.

2000

Nei primi anni del 2000 la Salvinelli ha sentito l'esigenza di soddisfare ancora di più le esigenze dei clienti offrendo complementi d'arredo per la tavola e per la cucina. Inizia così ad entrare nel mondo dell'importazione, ma solo per integrare la scelta di accessori da cucina che non possono essere prodotti internamente, ma tutti rigorosamente in acciaio inox. Amplia quindi la sua area produttiva, magazzino e uffici che ad oggi sono oltre 5.000 mq.

Le posate rimangono sempre "MADE IN ITALY" e per rafforzare questo concetto la Salvinelli affianca al suo marchio lo slogan "Italian Cutlery Concept" cioè: concetto Italiano di posateria. Stile, ideazione, produzione, design, concretizzazione di idee e concetti, tutta la posateria Made in Italy.

In the first years of the 2000 Salvinelli satisfied its customers' needs, increasing its range of products. It started to import accessories for kitchen and serving that can't be produced in the factory but all made strictly in stainless steel. Salvinelli increased production area, warehouse and offices that nowadays are over 5.000 sqm.

All cutlery are still "MADE IN ITALY" and to strengthen this concept, Salvinelli joins to his logo, the slogan "Italian Cutlery Concept". Style, creation, production of ideas and concepts, all cutleries are made in Italy.

A principios de la década de 2000 Salvinelli sintió la necesidad de satisfacer aún más necesidades de los clientes ofreciendo accesorios de decoración para la mesa y para la cocina. Así comenzó a entrar en el mundo de la importación, pero solo para complementar la elección de los accesorios de cocina que no se pueden producir en la empresa, pero todos estrictamente en acero inoxidable. Salvinelli expande su producción, almacén y oficina que en estos días son más que 5.000 mqs

Los cubiertos siempre siguen siendo "MADE IN ITALY" y para reforzar este concepto, Salvinelli apoya su marca el eslogan "Italian Cutlery Concept" que es: concepto italiano de cubertería. Estilo, ideación, producción, diseño, realización de ideas y conceptos, todos los cubiertos hechos en Italia.

PVD TRATTAMENTO TREATMENT

Un colore brillante e lucente per regalare alla tua tavola un tocco di originalità.

La lucentezza dell'acciaio Inox è unita a colori di tendenza, regalando alle posate vigore e sfumature pregiate.

Il trattamento PVD, a differenza dell'argentatura, non è una pellicola che riveste l'articolo ma è uno speciale processo galvanico realizzato in ambiente ad atmosfera controllata che permette al colore di penetrare nelle microporosità dell'acciaio.

Il risultato è una maggior durezza della superficie e la possibilità di ottenere colori diversi lasciando inalterata la lucidità dell'acciaio.

Il PVD viene utilizzato in svariati settori come in campo medico ed odontoiatrico e questo garantisce il suo utilizzo nella posateria a contatto con gli alimenti.

QUANTITA' MINIMA RICHIESTA 120 pz.

PVD Oro
Gold • Oro

A shining colour to give to your table a touch of originality. The brightness of the steel united to fashion colours gives to the cutlery particular nuances.

PVD treatment is different from silver-plated, that is a film that recovers the surface, but is a special galvanic process realized in an ambient with controlled atmosphere. The process permits to colour to penetrate into microporosity of the steel.

PVD is used in many works like as odontoiatria and other medical uses, so that it is a guarantee when the cutlery are in contact with foods. The result is a more hardness surface and the possibility to choose different colours maintaining the shine of the steel.

MINIM QUANTITY OF ORDER IS 120 pcs.

PVD Rame
Copper • Cobre

Un color brillante y reluciente para regalar a tu mesa un toque de originalidad. El esplendor del acero Inox se une a los colores de tendencia, regalando a los cubiertos vigor y matices preciosos.

El **tratamiento PVD** a diferencia de la plateadura no es una película que recubre el artículo sino un especial proceso galvánico realizado en un ambiente y en atmósfera controlada que permite al color penetrar en la microporosidad del acero.

El resultado es una mayor dureza de la superficie y la posibilidad de obtener colores diferentes dejando inalterada la lucidez del acero. El PVD se utiliza en diferentes sectores como, por ejemplo, el ámbito médico y odontológico y esto garantiza su utilizo por lo que concierne la cubertería que está en contacto con los alimentos.
